High Impact Paints provide complete coverage on just about any surface and dry to a smooth, clean finish.

The Tattered Angels Paint Collection offers a wide range of paint options, but when it came to painting on smooth and highly textured surfaces, such as fabrics and burlap, metal knobs and vintage wood, there was not a paint to do the job. So, Tattered Angels High Impact Paints were created. This amazing paint is a very high-quality, acrylic-based paint that is available in a rainbow of pure pigment colors and a range of metallics. Unlike other basic craft paints, this one goes beyond the call of paint duty...

HIGH IMPACT FUN FACTS:

- Blend the colors together to create your own colors.
- Wash the brush right away or it will even “paint the brush”.
- Apply one thin coat and let it dry, then paint the top coat for great coverage.
- Stencil or write with this paint on textured surfaces.
- The metallic colors actually look like metal when they are dry.
- Dries to a smooth, hard finish that gives new life to home decor pieces.
- Great option for painting details on furniture, like swirls and stripes, over Milk, Chalk or Decor & DIY paint.
- Add water to create a wash effect with the paint and it will still adhere to most surfaces.
- Paints will act as a resist for misting or washing.
- No need to paint outside - High Impact paints are non-toxic and have no fumes.
- When dry, paints are permanent, washable & colorfast.
- Perfect for indoor and outdoor use.
- No top coat required.
- Layer or add waxes or other top coats, if desired.
- Perfect for painting over found objects, crafts objects, etc. to match color schemes and decor.

- opaque coverage
- intense colors in pigment & metallic
- multi-surface paint
- multi-texture paint
- smooth finish
- best applied with a brush
- self-leveling
- 1.35-ounce bottle
- water-soluble
- non-toxic
- soap and water clean up
- no odor
- made in the USA
