STAINED GLASS

Stained Glass Paint is the perfect solution for adding color to clear objects and for tinting bottles for a fun, vintage look.

Stained Glass Paint is the perfect answer when you are looking for a paint to tint glass, plastic, pearls or any light or translucent items. This unique paint lets the beauty of the object come through while adding a touch of color.

STAINED GLASS FUN FACTS:

- Paint the outside of the object for best results
- Not intended for direct contact with food, but product is non-toxic
- Object can be washed after paint dries
- Not dishwasher safe or hard clean up
- For deeper tone, add more coats of paint
- Dip object into paint or brush on
- Wash glass or crystals before applying
- Shake paint to add bubbles for a vintage look
- Transform everyday bottles into vintage finds
- Paint clear crystal stickers to match wedding and home decor projects
- Blend colors to create your own custom colors
- Lay tall objects flat when painting them

Perfect for crystals, glass, bottles, jars, windows, plexi-glass, pearls, faux diamonds, plastic bottles and more.

- translucent tint paint
- apply with a brush
- 1.35-ounce bottle
- water-soluble
- non-toxic
- soap and water clean up
- no odor
- made in the USA
